

Hi, I'm Sam. I tell visual stories using data, graphics, and interactivity. It's so nice to meet you.

I'd love if you took a look at some of my work online at samvickars.com. You can email me at sam.vickars@gmail.com or call me at **604-379-4890** — I'm almost always down for a chat. If you follow me on Twitter, [@samvickars](https://twitter.com/samvickars), I'll probably follow you back.

I'm really good with **Figma** and **Adobe CC**; **Vanilla JS**, **CSS**, and **HTML**; **Svelte**, **D3.js**, **jQuery**, and **Mapbox**; **R Studio** and a little bit of **Python**; **SketchUp Pro** and **AutoCAD**; and I'm pretty good with my hands — I can draw stuff, build things, and just generally create. Most of my work uses some combination of the above.

Education

- 2016-17 • Parsons School of Design, *New York, New York*
Master's of Science in Data Visualization
- 2010-15 • University of Waterloo School of Architecture *Cambridge, Ontario / Rome, Italy*
